

## **Search Frequency Information for State Police Detachments**

These tables provide specific information about the circumstances of stops where a search was conducted by racial group for each State Police detachment submitting a total of 50 or more stops of WV registered vehicles from April 2007 through September 2008. The number of searches conducted by race and for the agency as a whole is provided in terms of the search authority, mode of search, what persons/items were searched, and what type of contraband, if any, was found.

Officers were instructed to “mark all that apply” on mode of search, persons/items searched, and contraband found. Thus, counts shown will not sum to the total number of searches for a given agency or race group.

“Other” category for search authority includes probation/parole waiver and all other types of searches. Totals for persons/items searches represent the number of stops in which a particular type of search was conducted – not the number of individuals or items searched.
