

VICTIM SERVICES

Were your Rural Program funds used to provide victim services to victims/survivors during the current reporting period?

Check yes if Rural Program-funded staff provided victim services or if Rural Program funds were used to support victim services during the current reporting period. Report all victims/survivors served, and services provided with Rural Program funds, whether by a victim services agency or victim services within law enforcement, prosecution, or the court system. Report criminal justice activities, such as 911 calls and investigations, in section E only.

29. Number of victims/survivors served, partially served, and victims/survivors seeking services who were not served

Please do not answer this question without referring to the separate instructions for further explanation and examples of how to distinguish among these categories. (Report the following, to the best of your ability, as an unduplicated count for each category during the current reporting period. This means that each victim/survivor who requested or received services during the current reporting period should be counted only once and in only one of the listed categories. For purposes of this question, **victims/survivors** are those against whom the sexual assault, domestic violence, dating violence, stalking, and/or child sexual abuse was directed. If the victim/survivor experienced more than one victimization, that person should be counted only once under the primary victimization. Child victims may only be counted if they are victims/survivors of child sexual abuse. Do not report secondary victims here.)

30. Number of secondary victims served

Please do not answer this question without referring to the separate instructions for further explanation and for examples of how and when to report secondary victims. (Report the following, to the best of your ability, as an *unduplicated* count for each category during the current reporting period. This means that each secondary victim who received services during the current reporting period should be counted only once and in only one of the listed categories, which should correspond to the category of victimization of the primary victim. For purposes of this question, secondary victims are those who are indirectly affected by the domestic violence, dating violence, sexual assault, and/or stalking—i.e., children, siblings, spouses or intimate partners, grandparents, other affected relatives, friends, neighbors, etc.)

32. Demographics of victims/survivors served or partially served

(Based on the primary victims/survivors reported in 29A and 29B, provide the total numbers for all that apply. Because victims/survivors may identify in more than one category of race/ethnicity, the total for "Race/ethnicity" may exceed the total number of victims/survivors reported in questions 29A and 29B. However, the total number of victims/survivors reported under "Race/ethnicity" should not be less than the total number of victims/survivors reported in questions 29A and 29B. The total number of victims/survivors reported under "Gender" and the total number reported under "Age" should equal the total number of victims/survivors reported in questions 29A and 29B. Those victims/survivors for whom gender, age, and/or race/ethnicity is not known should be reported in the "Unknown" category. Do not report demographics for secondary victims.)

If a victim/survivor experienced more than one type of victimization and/or was victimized by more than one perpetrator, count the victim/survivor in all categories that apply. The total number of relationships in the sexual assault column must be at least [insert sum of sexual assault victims reported in 29A and 29B]; the total number in the domestic violence/dating violence column must be at least [insert sum of domestic violence/dating violence victims/survivors reported in 29A and 29B]; the total number in the stalking column must be at least [insert sum of stalking victims reported in 29A and 29B]; and the total number in the child sexual abuse column must be at least [insert sum of child sexual abuse victims/survivors reported in 29A and 29B].)

(Report the number of victims/survivors from 29A and 29B who received Rural Program-funded services during the current reporting period. Count each victim/survivor only once for each type of service that victim/survivor received during the current reporting period; do not report the number of times that service was provided to the victim/survivor. The total for each type of service should not be higher than the total of 29A and 29B [insert total of 29A and 29B]. Shelter services should be reported in question 34B.)

34B. Shelter services

(Report the total number of victims/survivors and accompanying family members who received emergency shelter and/or transitional housing provided with Rural Program funds during the current reporting period. This should be an unduplicated count for both victims/survivors and for family members. This means that each victim/survivor and each family member who received shelter services during the current reporting period should be counted only once. Report the total number of bed nights provided in emergency shelter and/or transitional housing to victims/survivors and family members. The number of bed nights is computed by multiplying the number of victims/survivors and family members by the number of nights they stayed in the shelter. The number of bed nights will typically be significantly higher than the number of victims/survivors and family members. For example, one victim/survivor and her three children all stayed in the shelter for 10 nights. The number of bed nights would be 4 multiplied by 10, or 40.)

Shelter service	Number of victims/survivors	Number of family members (include all children here)	Number of bed nights

Transitional housing	<input type="text"/>	<input type="text"/>	<input type="text"/>

35. Hotline calls

(Report the number of hotline calls received from victims/survivors, and the total number of hotline calls received, during the current reporting period. Primary victims/survivors whose calls are reported here should not be reported as victims/survivors served in question 29 unless they also received at least one of the services listed in question 34A Victim Services or 34B Shelter Services. Victims/survivors who receive services such as crisis intervention or victim advocacy over the telephone, in addition to basic hotline information and/or referrals, should also be reported in question 34A. Hotline calls that include victim advocacy or crisis intervention services are those that require more time than the average call and involve a more intensive focus on the immediate needs and situation of the victim/survivor. For examples of when to report only the hotline call and when to report both the hotline call and a service or services in question 34A, see separate instructions.)

Victims/survivors who are the recipients of these notification/outreach activities should not be reported as victims/survivors served in question 29 unless they also received at least one of the services listed in question 34A Victim Services or 34B Shelter Services. Victims/survivors who receive services such as criminal justice advocacy in the course of a telephone or outreach visit should also be reported in question 34A.)

38. (Optional) Additional information

(Use the space below to discuss the effectiveness of victim services funded or supported by your Rural Program grant and to provide any additional information you would like to share about your victim services activities beyond what you have provided in the data above. An example might include that your agency, as the result of Rural Program funding, was able to provide medical accompaniment to an increased percentage of sexual assault victims/survivors, which resulted in a higher percentage of victims/survivors seeking additional support services.)
